## **GAEA SOCIETY - GO GREEN AND HOMECOMING KICKOFF**

The Windham High School Gaea Society, the Go Green branch, are running a kickoff event on Homecoming Weekend. They will be selling tables to local companies for \$50 or a higher donation if they choose. This money will be donated to W.I.R.E. in order to install wind turbines in Windham. Any money that companies donate will be put together and then matched (up to \$20,000 dollars) so that the wind turbines will be more financially attainable. The information on the matching can be found on [www.windhamendowment.org](http://www.windhamendowment.org).

The companies will have the tables on Saturday, September 18 from 4-7 PM at Windham High School. In addition, each branch of the Gaea society will have a table so that the community can see what we are going to be doing this year. If you are interested in buying a table or would like more information contact Kate at [kfgaea@aol.com](mailto:kfgaea@aol.com).
