Windham Endowment for Community Advancement
Post Office Box 4315
Windham, NH 03087

The Windham Garden Club enthusiastically endorses the Windham Endowment for Community Advancement's project to build a Greenhouse for the Windham High School. It is the Garden Club's mission to foster interest in horticulture, and we consider that a Greenhouse would offer outstanding opportunities to achieve this objective. Since our club sponsors a Junior Garden Club, with 16 active members, ranging in age from 7 to 15, we have seen how quickly young people learn and appreciate the pleasure of growing things.

Also, the enthusiasm exhibited by the teachers and staff at the High School demonstrate that it would be well used, not just to teach basic horticulture, but also bring in many other disciplines. Business, economics, art, and science are just a few. Most important, it will allow students to experience the pleasure of growing things, cultivating a lifelong interest in agriculture and gardening.

The High School is a focus for Community activities and this project will enrich the entire Town. Four of our members are active participants on the Greenhouse committee and are committed to making it happen.

Sincerely yours,

Margaret M. Crisler
President
